Personal Statement:

As a Business Information Technology graduate from the University of Kent, I am passionate about bridging the gap between business and technology. Here I have strived my passion for the Technology Industry, computers and how they function. My academic journey has equipped me with a robust understanding of both technical and business concepts, and I am eager to apply my knowledge to real-world scenarios. My projects and coursework have sharpened my problem-solving skills and analytical thinking. I am excited to contribute to technological advancements and innovative business solutions.

Education:

University of Kent - Business Information Technology

Sept 2021 - June 2024

Grades - Overall 2:2 achieved

I've pursued a range of tech modules, including Database Systems, algorithms, Software and Web Development fostering a comprehensive understanding of tech concepts. Additionally, I've explored business modules like Financial Accounting, Entrepreneurship, Contemporary Management, and Project Management, honing my business management and strategy.

Easthampstead park community school, Bracknell

Sept 2014 - July 2021

A level/ BTEC's - IT – Distinction, Business – Distinction, Media - B

GCSE's - 8 GCSEs grades 7 to 5, including English and Mathematics

Work Experience:

General Assistant - Coral Reef Waterworld

June 2023 - Current

- Assisting with customer queries and Maintaining the cleanliness and safety of the water park
- Administering first aid with my Lvl 3 emergency first aid qualification

Kitchen Assistant - Wetherspoons

June 2022 - Sept 2022

- Ensuring the kitchen is prepared and making meals for customers has improved my time management skills
- Working as an influential team member, ensuring clear communication
- Using my critical thinking to work efficiently in a highly pressurised environment

Retail Assistant - Primark

Feb 2020 - Aug 2021

- Serving customers in a friendly and presentable manner, ensuring high levels of customer service at all times.
- Primarily working on the cash register and managing money.

Other Experience:

Johnson and Johnson

Sept 2018 - July 2021

I completed a 3-year course that was a collaboration between my school and Johnson and Johnson. This involved attending monthly sessions with J&J. As part of a team; we ran an escape room event for a charitable cause. I gained valuable skills during this programme, including teamwork, leadership, event planning and working efficiently.

National Citizen Service (NCS)

June 2019 - July 2019

I Participated in a this charitable organisation, where I helped to run a charity event for Guide dogs. I managed internal communications giving me the job of boosting team spirit and morale, as well as managing a temporary social media page.

Skills:

- Basic familiarity with various coding languages, including Java, JavaScript, CSS, HTML and more
- Complex Website development using Webflow and simplistic website development using my coding skills.
- Advanced knowledge of using applications such as Excel, Word and PowerPoint
- Experience using Firebase and SQL databases alongside application development to store and manipulate data
- Advanced Photoshop skills acknowledged in my media class allowed me to be a teaching assistant. I will use my creativity to develop my projects further.
- I have built many computers and solved issues my family and I have had with them.
- Basic knowledge of managing databases and using queries.
- I have developed my teamwork and leadership skills through working roles and university group projects.

Extracurricular Activities

- I enjoy gaming and was an active University of Kent's R6 Esports team member.
- I also enjoy exercising through team sports like Basketball and Football.
- In my free time I explore my creativity, through creating my own Photoshop and coding projects.
- I enjoy testing my problem-solving through puzzles and games that keep my brain working, such as chess.
